Licensed Psychologist #4360

Estimated Cost of Services

There is now a law in Colorado requiring that I give you an estimated total cost of treatment up front. While this is quite challenging given the nature of this work, I will say that I see many of my clients for anywhere from 10-20 sessions, which would mean a total cost of \$1900-3800, as sessions cost \$190 per session. You are of course welcome to attend fewer or more sessions than that 10-20, and I'm happy to keep you updated as to what I think would be helpful to you as we begin working together. Please understand, you are not committing to paying any sum of money up front by signing this document, as I only collect payment after each session, never in advance. Your signature here simply acknowledges an *estimated* cost of therapy. Please let me know if you have any questions regarding this.

I have read the preceding information and understand my rights as a client.
